

Turn a career idea into a plan.

Explore the work, make time to learn, and prepare your next step. This is a preparation plan; completing a credential takes its own schedule.

IT Support Professional Certificate (IBM)

16 weeks of training time at 10 hours / week

160 curriculum hours ÷ your weekly hours, rounded up. Published program syllabus. [See the curriculum.](#)

This is a planning estimate. Allow additional time for enrollment, practice, scheduled sessions, and exams; confirm your actual schedule with an advisor.

2 of 8 preparation steps done

WEEK 1

Check the career, not just the title

- ☒ Explore IT Support Specialist work. Read the tasks and entry requirements, then compare two current job postings in your area.
[Research this occupation on My Next Move](#) ↗
- ☐ Read the IT Support Professional Certificate (IBM) curriculum. Write down one thing that interests you and one question about prerequisites.
[Review the program curriculum](#) ↗

WEEK 2

Make room for learning

- ☒ ~~Try a 10-hour study week on your calendar. Choose specific days and a backup time around work and family.~~
- ☐ Check your computer, internet, and study space. List any accessibility, language, transportation, or caregiving needs to discuss with an advisor.

WEEK 3

Try a skill and keep the evidence

- ☐ Explore an introductory resource on Help desk. Explain what you learned in your own words; use free resources before paying for anything.
- ☐ Save a short work sample or learning note. Write what you tried, what you learned, and what you would practice next. Use sample information, not private data.

WEEK 4

Decide with the right support

- ☐ Discuss prerequisites, scholarship or grant eligibility, any uncovered costs, equipment, the actual schedule, and career support with WorkforceAP.

[Talk with the WorkforceAP team ↗](#)

- ☐ Choose your next step: apply for this program, compare another path, or revise your study plan. You can apply earlier if you are ready.
